RE: Return to School

Dear families of Rock City School,

I hope you have had the chance to look over the district's [Restart Plan](#) document that was published on Wednesday August 26th to learn more about what schools will look like this September. By now, you have also received information from the district outlining the three options available for students to return to school in September.

Following the direction of the Ministry of Education and in order to support a smooth start up, I am requesting that you indicate which option you are choosing for your child(ren). The sooner we have this information, the sooner we can confirm classes and Learning Groups. Once we start back to school, there will be very little opportunity to switch members of Learning Groups, as per the Ministry Health & Safety Guidelines, so your immediate attention is greatly appreciated. The attached survey will ask you to select one of the following for your child(ren):

1. In-class instruction at your child's school;
2. Distributed Learning through the district's [Island ConnectED K-12 program](#) (learn at home); or
3. [Homeschooling](#).
4. I am unsure about selecting one of the three choices and/or have an anxious student and would appreciate talking to someone at the school.

Please complete this [survey](#), to indicate your choice by Monday, August 31, 4 p.m. Please complete a survey for each one of your children registered in the district.

Thank you very much for your cooperation. I know this time can be stressful and if you have any concerns or worries about your child starting school in September please indicate that in the survey and someone from the school will connect with you.

Sincerely,

Mike Lundine
Principal
Rock City School
